

# One solution, three flavours

Work together, wherever you are.

A man with a beard and short dark hair, wearing a blue denim shirt over a grey t-shirt, is sitting at a desk in a modern office. He is looking at a smartphone in his right hand while his left hand rests on a laptop keyboard. The background is a blurred office interior with large windows and modern decor. Overlaid on the left side of the image are several overlapping circles in shades of blue, green, and purple. The bottom of the image has a solid blue gradient overlay.

# Introducing Unify Phone

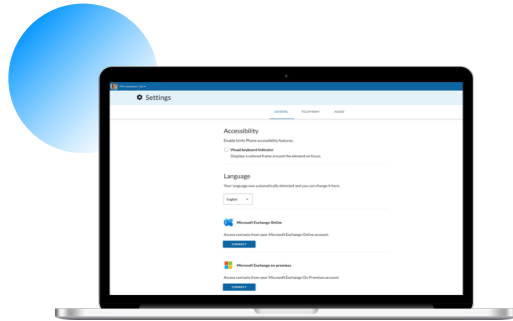

Unify Phone is a cloud based WebRTC telephony solution for OpenScape platforms: OpenScape Voice, OpenScape 4000 and OpenScape Business.

Unify Phone web and mobile clients provides access to many of the native OpenScape platform benefits and features, allowing the retention of existing telephony numbering and continued use of existing desk phones where needed, providing maximum flexibility.

- ✓ Great value solution
- ✓ Benefits of cloud
- ✓ Preserve numbering
- ✓ Keep provider relationships
- ✓ Re-use current investments
- ✓ No added complexity
- ✓ Single sign on

## Your softphone for hybrid working connected to your OpenScape platform

### Unified experience

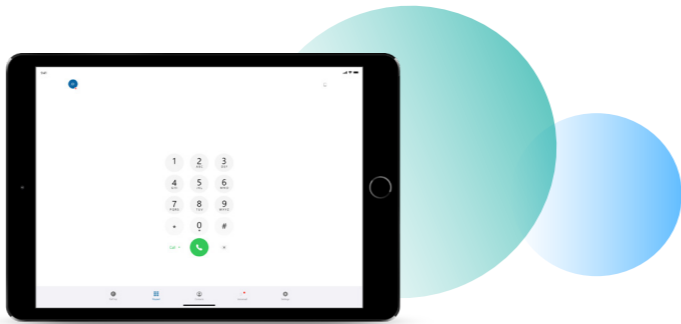

- OpenScape One Number Service with parallel ringing, call swipe and move features
- Contact integration with Exchange Online™/Premise, iOS™ and Android™
- Works with existing OpenScape desk phones

### Easy licensing and billing

- Unify Phone subscription + IP user license on OpenScape platform (Software Support Required)
- Recurring OPEX pricing per month for Unify Phone

### Fast implementation and adoption

- Easy Administration and Deployment
- Management from existing OpenScape Platforms
- Simple to use Unify Phone clients, no training needed

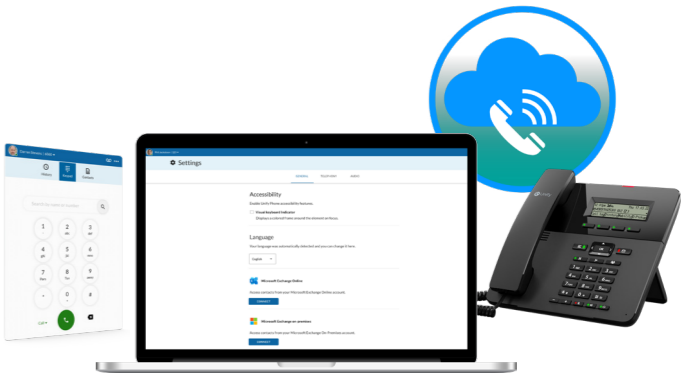

# One solution, three flavours

## Unify Phone for OpenScape

Unite the telephony experience whether mobile, web or desk phone.

- Easy to use, fast to deploy web and mobile applications
- Presence and contact integration
- Call from alternate numbers or devices
- Ring & hunt group support
- Pull & push active calls
- Management from OpenScape platform

The best option for an easy to use, native telephony soft client connected to OpenScape for exceptional mobile and hybrid working.

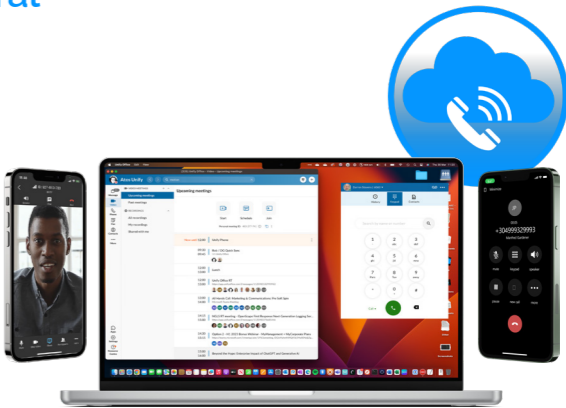

## Unify Phone for Unify Video by RingCentral

Add calling to Unify Video by RingCentral messaging and meetings from your own voice platform with an elegant integration.

- Simple, easy to use hybrid collaboration solution
- Leverages existing investments
- One Number service from OpenScape
- Use existing desk phone devices
- Integrated presence across solution
- Contact integrations

Choose this option, if you need cloud-based messaging and meetings but appreciate the control OpenScape telephony brings blended with a great user experience.

## Unify Phone for Microsoft Teams

Make and receive calls from your OpenScape platform from directly within Microsoft Teams.

- Unify Phone embedded in MS Teams
- No additional Teams licenses needed
- Avoid the cost of additional SBCs
- Retain existing numbering plans
- Maintain existing service providers
- Low cost, low risk, low complexity

Select this option if you wish to continue benefitting from your OpenScape telephony while adding a consistent Teams calling experience through a cloud based client.
